Inherited sources (frozen): Foundations Vol. I-II (SELECT-II, FIELD-I), GEO-I Papers A, B, releases.
Not re-proved here; inherited verification status NOT_RERUN.
Paper I (v0.4)
lattices, Graver sets, abstract vs realised cells; dimension 2 vs 3
Paper II (v0.4)
histories, swaps, block rewrites, endpoint kernel, route complexes
Paper III (v0.4)
collective map, events, divisor-interval rule, zig-zag identity, towers
I, II, III cite one another only through proved statements
Paper IV: nine synthesis propositions SIV-P1 to P9 (new proofs from the three sources), the global diagram (Fig. 21), exact obstructions, open construction obligations
