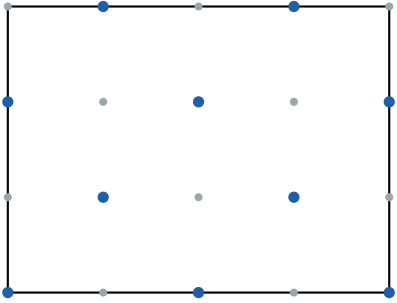
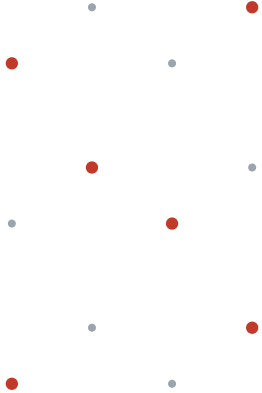
planar: $\Lambda \subseteq \Lambda' \subseteq \mathbf{Z}^2 \Rightarrow U \subseteq U'$ (Paper I Thm. planar)



Λ (dark) $\subseteq \mathbf{Z}^2$, any box

three dimensions: $\Lambda = 2E_3 \subseteq 2\mathbf{Z}^3$, $Q = (2,4,2)$: $U \subseteq U'$ (Thm. C1)



dark: points of $2E_3$ in the box (exact lattice; cells not drawn)
